

PRIMUS: BAG IN BAG

Bag Form, Fill, and Seal Machine

By General Packaging Equipment Company

BAG IN BAG

General builds bag in bag systems for producing instant hot & cold packs and has produced machines for other applications. The machine shown is the General PRIMUS model 422AC/C used primarily for coffee in-room packages.

It will produce 1 in 1 packs at rates up to 90 per minute and will also package multiple filter packs into the overwrap. The servo version of this model, the 421AC/C runs at higher output rates (up to 100 bpm).

Features:

- Color touch screen operator interface
- Quick adjustment of all timing functions
- Password protected
- Bag, case, and output count for case change
- Temperature controls
- Internet and LAN output
- Multiple languages available
- Easy access to all control components

Model	Seal Drive	Pillow Width Range	Bag Length Range
421	Servo	2.5"(64mm) to 10"(254mm)	Up to 16"(406mm)
422	Pneumatic	2.5"(64mm) to 10"(254mm)	Up to 16"(406mm)
